From this house telephone, you can dial 911 for emergency response teams, or 411 for information, or call numbers within the United States.

You will NOT be able to make international calls or premium/pay calls with this number, as they have been blocked.

Our cell phones are pre-programmed in the address book of the red phone if you need to contact us.

## Television & Music

- We have a Roku-enabled television, which allows you to stream your favorite movies, music, and TV shows directly from the Internet.
- There is also a USB port where you can plug in your device to access your own stored movies.

- For your convenience, we have preloaded our Amazon Prime account from which you can watch free movies and free TV shows (shown with the Amazon Prime icon). You cannot download or watch any pay-for movies or programs using our account. You can however, do so using your own Amazon Prime account.

- If you have a Netflix account, you can access it from the TV by inputting your account information. Be sure to close out your account prior to check out.
- We also have many DVD movies that you can watch. They are kept in two places:
  - a) in the red Ottoman near the fireplace
  - b) in the bottom drawers of the bookshelf in the 2nd bedroom.
- Please keep the two remote controls (one for TV and the other for DVD player) on the fireplace mantle when you check out.
- If you need to recharge your smartphone or other digital devices, you'll find a convenient outlet under the vinyl tree art and the red bench in the dining room.

## Kitchen

- There is no garbage disposal in the sink, so please remove any solids in sink and place in garbage can
- Garbage can for your general trash is located inside a kitchen cabinet under the area where the toaster oven is. If your trash level exceeds the indoor can, please use the external garbage bin outside near the carport. Pick up is on Wednesday morning.
- You will find a recycling bin under the kitchen sink (on the left). We can recycle glass, plastic, and paper.
- Please place your dirty dishes in the dishwasher. If you want to hand wash dishes, there is a microfiber dish drying towel in the drawer to the right of the oven.
- When using the oven, **do NOT use foil to line the bottom of the oven** as the heating unit will melt the foil and cause damage to the pan. (Note: If this occurs, you may be charged extra cleaning fees.)
- In the cabinets and drawers, help yourself to many of the basics to help you prepare and serve meals and snacks.
- We have a toaster oven, rather than a toaster.
- Coffee (regular and decaf) is in the refrigerator. If you prefer instant coffee or enjoy tea, there is a selection in the cabinet to the right of the stove.
- The coffee machine uses a gold filter that can be reused. No paper filter needed. Please do not throw the gold filter away. If you purchase your own coffee, we recommend buying coffee grounds for drip machines.
- If you prefer to prepare your coffee with a French Press, you will find one in the racks below the kitchen island. Please dispose of coffee grounds in the trash can and do NOT put them down the drain.
- Please enjoy the filtered water in the Brita pitcher in the refrigerator.

- In case of emergency, we have a toilet plunger and also a toilet scrubber next to the toilet.
- Please do NOT flush sanitary napkins, condoms, diapers or anything like that in the toilet. Rather, please place these items in brightly colored OUT disposal bags that are located in the medicine cabinet. Then throw the bag away in external garbage can that is located near the car port. Best to get these items out of the house as quickly as possible.
- Please do not use the white towels to remove your make up or with temporary color/dye for your hair, as this will ruin the towels. We have provided make-up

remover pads in the medicine cabinet. If you have dyed/colored hair, please let us know and we will provide you with dark towels to use.

## Temperature Controls

### Heating & Cooling

This home is heated and air cooled through a forced air system. There is one central thermostat (white in color) which is located on a wall in the living room, near the hallway leading to the bedrooms. Brand is Honeywell.

On the same thermostat you can move the level to Cool, Off, Heat, or Em Heat (emergency heat).

The thermostat screen will show you two temperatures: the current temperature inside the house, and the temperature we have programmed it to.

We have set the temperatures as follows:

- Heater will kick on if the temperature goes below 67°F
- Air conditioning unit will kick on if the temperature rises above 75 °F

If you like, you can adjust the temperature programming to change to accommodate your desired level of comfort.

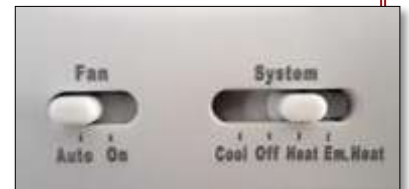

If you prefer it to be a little cooler or a little warmer, you can easily adjust the temperature by pressing the up and down arrow buttons on the thermostat.

Please keep the FAN button on Auto. No need to change it to On.

If possible, please keep the windows closed, as it will keep the house cleaner, quieter, and more regulated.

Extra blankets can be found in the closets of each bedroom.

If you would like to use an electric fan for more focused cooling, just let us know and we can provide you one during your stay.
