

THE FEARLESS LEADER

GET YOUR BUSINESS AND CAREER BACK ON TRACK

8-week Group Mentoring Program
with Kathy McAfee

If you work for a large organization, your company knows it needs a strong and diverse leadership pipeline in order to preserve the future of the business. Your organization must be proactive and invest in developing future leaders across the enterprise.

If you are a professional woman or a minority employee with ambition, this program is for you. It's time to take charge of your career and invest in your future. You deserve a seat at the leadership table.

If you are a woman-owned or minority-owned small business or consultant, you must be bolder and more focused in order to compete and win. You'll need a fearless leader mindset and a plan to build momentum and grow.

WE NEED MORE FEARLESS LEADERS

The goal of The Fearless Leader 8-week group mentoring program is to help women and people of color to get their careers and businesses moving forward in positive and powerful ways.

This program is 100% virtual and 100% transformational. Participants emerge from this program with new skills, more confidence, and the mindset necessary to lead the way forward.

We'll deep dive on a range of leadership topics to accelerate your progress and readiness to lead.

INVEST IN YOUR HIDDEN LEADERS

Sometimes deserving people get overlooked or are hiding in plain sight. That's why we work with progressive companies and motivated leaders who build diversity, equity, and inclusion into their talent strategy, workplace culture, and leadership philosophy. We'll help you groom and develop more women and people of color so that they can become leadership assets for your organization.

People selected for The Fearless Leader program must be fully committed to do the work and take personal responsibility for their own professional development. ***That's why we require candidates to APPLY for this 8-week group mentoring program.***

Space is limited so apply now for one of these upcoming open-enrollment programs:
